The Jordan Audiologist Performance Appraisal System
The Jordan School District Audiologist Performance Appraisal System is designed to give audiologists information on their performance from those they provide service to and from their immediate supervisor. Information about the audiologist’s performance is gathered through a survey which the immediate supervisor uses to complete the evaluation. An optional section is included for noting performance on projects or goals the audiologist is working on during the evaluation year.

The Process

Orientation/Notification
An audiologist who is to be evaluated must receive notification of the evaluation at least fifteen working days before the evaluation is to begin. A copy of the instrument and instructions must also be given to her or him.

Pre-evaluation Meeting
The immediate supervisor schedules a meeting with the audiologist during the first quarter of the contract year. During this meeting, the immediate supervisor and the audiologist identify a client group (those individuals to which the audiologist provides support such as teachers, administrators, etc.) A random sample of this group will be asked to provide feedback on the audiologist's performance. The names of these individuals are attached to the Pre-evaluation Form.

This meeting also provides an opportunity for the immediate supervisor and the audiologist to discuss what projects and goals the audiologist will be working on during the current school year. The immediate supervisor and the audiologist may elect to make these plans part of the evaluation (optional). If these annual work plans are to be used as part of the evaluation, a standard for acceptable performance for each goal/project should be identified. (If an annual work plan is to be used as part of an evaluation, it should be part of the evaluation for all audiologists within the same program/department.) See the appendix for directions for preparing an Annual Work Plan and the Work Plan form.

The immediate supervisor and the audiologist will also determine at this meeting when the surveys will be sent to the random sample of the client group and when the final evaluation meeting will be held (the evaluation must be completed and the final evaluation report submitted to the Human Resources Department by April 1).
Provisional Audiologists

The first evaluation of each provisional year will not include the distribution of surveys. This evaluation will consist of the immediate supervisor completing the Jordan School District Audiologist Performance Appraisal System Supervisor Form. The optional Specific Performance Areas will not be addressed. The completed evaluation is sent to the District Office, Human Resources Department, by the deadline for first evaluations for provisional educators.

The second evaluation of each provisional year will include the distribution of surveys and, if applicable, the Specific Performance Areas section of the supervisor form.

Surveys

A Jordan School District Audiologist Performance Appraisal System Client Survey Form is sent to twenty randomly selected individuals from the client group list identified during the pre-evaluation meeting. This survey asks the respondent to describe the audiologist’s performance on thirty-two items divided into seven groups or domains. A three point scale is used: “This statement is Highly Descriptive of this person”; “This statement is Descriptive of this person”; “This statement is Not Very Descriptive of this person.” The respondent is also instructed to leave any item he or she is unsure of blank. Respondents are instructed to return the survey form in a sealed envelope to the Human Resources Department.

The returned forms are optically scanned and a computer generated report indicating the average rating for each item and each domain is produced. This report is sent to the immediate supervisor to use in evaluating the performance of the nurse.

Evaluation Meeting

The immediate supervisor and the Audiologist meet at a predetermined time to discuss the results of the client group survey and to complete the evaluation. The Jordan School District Audiologist Performance Appraisal System Supervisor Form is completed during this meeting. The immediate supervisor uses the information from the client group report and other information to rate the performance level of the audiologist in seven areas or domains. If the audiologist receives a rating of Fair/Below Standard or Unacceptable, an explanation supported by evidence, must be provided. Written documentation is required and must include any or all of the following:

- observations
- face to face meetings
- phone/email contacts
- written and oral communication
- other pertinent information

If the immediate supervisor and the audiologist also agreed that performance goals or projects
from an annual work plan would be included in the evaluation, these are rated. The immediate supervisor rates the performance level of the audiologist on each of the seven areas as either: unacceptable, fair/below standard, satisfactory/standard, very good/above standard, or outstanding. An overall evaluation rating is then made based on these data.

When the supervisor form has been completed, including any goals or comments, the immediate supervisor and the audiologist sign the form. Two copies of the form are made, one is given to the audiologist, one is kept by the immediate supervisor and the original is sent to the Human Resources Office to be placed in the audiologist's personnel file.

If the Overall Rating for the evaluation is Satisfactory/Standard or above, the evaluation process is complete. If the Overall Rating for the evaluation is Fair/Below Standard or Unacceptable, then a remediation process begins.

**Remediation Process**
During the Evaluation Meeting, a **Audiologist Performance Appraisal System Addendum** is completed. The immediate supervisor and the audiologist identify goals for improvement and the activities and/or resources the audiologist will use to reach the goals. The audiologist is given at least 20 working days to reach the goals. (The immediate supervisor and the audiologist may choose whether or not to send out the survey again.) The immediate supervisor then schedules an evaluation meeting to review the audiologist's progress. **A Jordan School District Audiologist Performance System Supervisor Form** is completed at this meeting. If the Overall Rating is Satisfactory/Standard or above, the evaluation process is completed. If the Overall Rating is Fair/Below Standard or Unacceptable, the audiologist is placed on probation and a third evaluation cycle begins.

For the third evaluation cycle, a second addendum is completed, identifying goals for improvement and the activities and/or resources the audiologist will use to reach the goals. The audiologist is given at least 20 working days to reach the goals. (The immediate supervisor and the audiologist may choose whether or not to send out the survey again.) The immediate supervisor then schedules an evaluation meeting to review the audiologist's progress. **A Jordan School District Audiologist Performance System Supervisor Form** is completed at this meeting. If the Overall Rating is Satisfactory/Standard or above, the evaluation process is completed. If the Overall Rating is Fair/Below Standard or Unacceptable, the Audiologist may be subject to a change in assignment or to DP 316 Orderly Termination Procedures.

Annual Work Plan Preparation
Jordan School District
Preparation of an Annual Work Plan

Rationale

The purpose of the Jordan School District Annual Work Plan is to give employees in schools or departments electing to use the plan a means to establish specific objectives for themselves. This is to be accomplished in collaboration with the employee’s supervisor and must be approved by the supervisor.

The Annual Work Plan is used at the discretion of schools or departments and is an optional component of the “Performance Appraisal System” used for several categories of jobs in the district. The Annual Work Plan allows employees to define their jobs beyond the “general performance areas” of the Performance Appraisal System by writing **specific** work objectives and definitions of satisfactory or “standard” performance. The specific objectives and definitions then become a part of the employee’s appraisal. Both the general performance areas and the specific performance objectives are evaluated by the employee’s supervisor at the end of the performance period.

Suggested Process for Preparing the Annual Work Plan

1. The department establishes **departmental** goals or objectives in a collaborative process.

2. Individual employees incorporate appropriate **departmental** objectives into their **personal** work plan.

3. Specific **personal work objectives** not in the departmental objectives maybe identified by employees and/or supervisors and incorporated into the personal work plan.

4. Each employee meets with the supervisor to discuss the employee’s objectives, and the supervisor approves the employee plan.

5. The supervisor evaluates performance on attainment of the objectives at the end of the performance period.
Using the Annual Work Plan Form

The Annual Work Plan form is completed by entering two items for each specified objective. First, the objective itself is written. Second, the satisfactory or “standard” level of performance is identified. An objective describes a major element in the employee’s job in terms of a general outcome, e.g. “Provide appropriate inservice training to secondary English teachers.” The satisfactory or “standard” level of performance would be a more specific statement, such as: “All English faculty in the district’s secondary schools will receive ten hours of training during the next school year. Training will be evaluated by a participant feedback form.”

Other examples of specific objectives and definitions of satisfactory performance standards are attached to this document.
